制作下拉式ToolBar菜单代码 SWT制作下拉式toolbar菜单按钮

的代码片段: final ToolItem 0dropdown = new ToolItem(bar, SWT.DROP_DOWN). 0dropdown.setText("Drop-down"). //—

个popupMenu final Menu menu = new Menu(shell, SWT.POP_UP). MenuItem choice = new MenuItem(menu, SWT.PUSH). choice.setText("Choices").

0dropdown.addListener(SWT.Selection, new Listener() { public void handleEvent(Event event) { if (event.detail == SWT.ARROW)

{ Rectangle rect = 0dropdown.getBounds(). Point pt = new Point(rect.x, rect.y rect.height). pt = bar.toDisplay(pt).

menu.setLocation(pt.x, pt.y). menu.setVisible(true). } } }). 100Test
