【范文】 Intelligence-Nature or Nurture? Nowadays, there is no agreement among people concerning intelligence. Some people contend that intelligence is to some extent something we are born with. And the closer the blood relationship between two people, the closer they are likely to be in intelligence. However, others maintain that environment plays a crucial role in our intelligence. For instance, if we put two identical twins in different environments, we might send one to university and the other to a factory where the job is boring, we would find differences in their intelligence several years later. Just as every coin has two sides, our intelligence is partly born and partly developed. The sure way to develop our intelligence is intelligent parents as well as a good environment. 100Test 下载频道开通，各类考试题目直接下载。详细请访问 www.100test.com
