You should write at least 120 words and base your composition on the outline below : 1、大学生难找工作，2、原因很多，3、解决的办法。 Job hunting has always been a headache for college students. Though many graduates are employed right after graduation, some are not. Most serious of all, some still have no idea where to go working even a long time after graduation. The reasons for this phenomenon are various. On the one hand, a few years ago colleges and universities enrolled so many students in popular majors, such as economy, finance and so on that the number of graduates was greater than the need in the market. On the other hand, most graduates would rather stay in large cities without suitable job to do than go to the country. I reckon this problem can be solved if both colleges and students take measures. First, they should research the market and develop special skills to suit its need. Second, students' attitude towards employment should be changed. They should go to small cities and country. There they can also give full play to their professional knowledge. In a word, if we pay much attention, the situation can be improved. 相关推荐：四六级机考难度大 专家建议提前感受“在线模考” 2009年6月参加四六级机考试点的高校名单 关于2009年大学四六级机考改革的五问五答 四六级机考与笔试差异评析 2008年12月四六
