8.artificial intelligence 9.weapons 10.religion 听力听写 I am interested in criminal justice system of our country. It seems to me that something has to be done if we are to survive as a country. I certainly dont know what the answers to our problems are. Things certainly get complicated in a hurry when you get into them. But I wonder something could be done to deal with some of these problems. One thing I am concerned about is our practice of putting offenders in jail who havent harmed anyone. Why not work out some system whereby they can pay back the debts they owe society instead of incurring another debt by going to prison and of course coming under the influence of hardened criminals. I am also concerned about the short prison sentences people are serving for serious crimes. of course one alternative to this is to restore capital punishment. but I am not sure I would be for that. I am not sure its right to take an eye for an eye. The alternative to capital punishment is longer sentences. But they would certainly cost the tax payers much money. I also think we must do something about the insanity plea. In my opinion, anyone who takes another persons life intentionally is insane. However, that does not mean that person isnt guilty of the crime, or that he shouldnt pay society the debt he owes. Its said of course that the person may have to spend the rest of his life or a large part of it in prison for acts that he committed while not in
