FROM 语法相似 比如：0update employee_bonus set bonus = 0 from employee_bonus b inner join employees e on b.employee_id = e.employee_id where e.bonus_eligible = N ORACLE里面需要这样才能完成上面的功能 0update (0select bonus from employee_bonus b inner join employees e on b.employee_id = e.employee_id where e.bonus_eligible = N) t set t.bonus = 0 更多优质资料尽在百考试题论坛 百考试题在线题库 oracle认证更多详细资料 100Test 下载频道开通，各类考试题目直接下载。详细请访问 www.100test.com
