例文： Nearly nobody can live his/her whole life in campus.

Campus is a micro-society, most of people came to campus for the knowledge, with similar objective, people can get along with each other easier. However, when you get out of the campus, you will find the society is much more complicated than the campus. Is this mean the campus live better than off campus live? No, I don't think so. First of all, people need to get the ability to solve the problems, campus can show you the theoretical way, however, these solutions must be adjusted according to the different environment in the practice. So you can not learn the alternative or adjusting method in

the campus, you can only figure it in the off campus live by yourself. Second, nearly everything is arranged for the students, the lectures, accommodation, teachers and examinations. What you need to do just follow the instruction and rules. Things are changed in the off campus live, you must arrange every thing for yourself, sometimes, you have to make the schedule for others. that means the off campus live will show you how to manage your live. some people can learn it very well and they got everything they want. Last, but not the least, the communication in the campus and off the campus are different. People are easy to communicate with their classmate, because they have similar age, and same position. The communication is acadamy oriented. When you come to the society, you will meet more people, your friend, your colleague, your boss, your customer even your father(mother)-in-law. Your communication is not only the acadamy oriented, but also business oriented, family oriented etc. You can ' t use score and examination to measure your off campus live, it is more challenge, interesting and attractive. Think about it, you can make it better! 词汇和短语必备 : (words& expressions) off campus 校外 On campus 校内 100Test 下载频道 开通 , 各类考试题目直接下载。详细请访问 www.100test.com
