Burden Many countries will experience aging populations in the next century because of declining birth and mortality rates. China will

soon join their ranks. As for the issue of aging, its situation has been growing increasingly severe in spite of the fact most people are still ignorant of the problems it brings about. Firstly, with families

becoming smaller and living pace escalating, it is even graver for families to care for aged members adequately. Secondly, aging causes

a relative decline in working force in that fewer people have to support the increasing aged people. Consequently, the productivity of the whole society is affected to some extent. Thirdly and most

importantly, the aging of population in China resulted from the successful implementation of family planning has not been

synchronized with national economic progress. The rapidity of the

populations aging has made it more urgent for the adoption of countermeasures. No doubt the key is to build a solid economic foundation. Meanwhile, importance shall be attached to overall social progress by changing the backward situation in social security, welfare and service. Whats more, family care and community services shall also be encouraged. 好词佳句总结： aging population 老年人口 birth rate 出生率 mortality rate 死亡率 ignorant of 不知道 不懂 graver 更严重的 e.g. This heavy rain could have grave consequences. 这场大雨会造成严重后果。 adequately 充分地 productivity 生产力 implementation 执行 family planning 计划生育 rapidity 速度 在这用rapidity比speed好~ countermeasure 对策 solid economic foundation 稳固的经济基础 Population old age 人口老龄化 Population burden 人口负担 Old age social security 老年社会保障 Sustainable development 可持续发展 100Test 下载频道开通，各类考试题目直接下载。详细请访问 www.100test.com
