Weekends: Is weekend important to people? Definitely it is. In my opinion, when people are very tired or annoyed during weekdays, they need some leisure activities to relax their tension on weekends, and then they can continue more effectively and efficiently. Also, people can do their own business on weekends because they are busy in during work, such as visiting relations and friends, shopping for necessities and clothes. What do people do on weekend? Well, as I just said. People can choose to carry on their personal business or just relax. They can visit and talk to their friends to keep the relationship going on, read books and magazines of their interests, do sports to keep fit, or watch TV to relax their tension. For my family, we always go to supermarket to buy some daily necessities together, or go to shopping mall to have fun. Do you think people should be asked to work on weekends? No, I don ' t think so. They will be too tired in the weekdays to go on concentrating on their jobs on weekends. Although they are forced to work, the production and effectiveness will be very low. Also, the employees will complain on the company since they have the right to have a rest, so the loyalty will be reduced. Do you think people should get more money if they work on weekends? Firstly, I don ' t think people should be asked to work on weekends. But if there are some urgent tasks, then they should get more money for the extra hours. Because employees have

the right to relax and do their personal business on weekends, to respect them and to keep the effectiveness, the manager should pay them more for the work on weekends. Which day do you like more on weekend? I think I prefer Sunday, because I always plan to review the knowledge taught during the week or deal with the assignments on Saturdays and have relax on Sundays. You know, all the people prefer rest than studies~Haa~ What do you often do on that day? Well, in the mornings, I always spend with my friends. We will go to a fitness centre to do some exercise together, or just sit in a Caf é to chat and share the recent lives. Then in the afternoons, my parents and I will go to supermarket to buy some daily necessities together, or go to shopping mall to have fun. In the evenings, I ' ll put myself into the busy studies again, to plan the timetable for next week. Do you think that people will spend more money on weekends? Well, I think it depends. Some people like me always go shopping on weekends, so absolutely we will spend more money. Or some like watching movies in a cinema, or having dinner with friends in a restaurant, so are all expensive. But some people only like watching TV at home, or read books in a library, so they will spend the same amount of money on weekend as in weekdays, or maybe even less.
