proud of the medical (S1)_____ made in this country. Medical scientists have found cures and (S2)_____ for many diseases.

They have learned a great deal about cancer and heart disease. Many lives have been saved. American (S3)_____ are the most modern

and best-equipped medical (S4)_____ in the world. But this degree of (S5)_____ has been expensive. Medical care in the

United States is expensive. There is no national health plan for

Americans. But there are many programs (S6)_____ for the

purpose. Many people have health plans at the companies where

they work. Under these plans, the company pays a fixed sum of

money regularly into a fund. Then when the (S7)_____ needs

medical help, he can use money from the fund to pay for it. Other

people have health insurance.

(S8)_____. In

some medical plans, the insurance company is also the medical

institution. People regularly pay the hospital directly.

(S9)_____

_____. The government has health insurance programs for older

people, poor people and those with long term illness.

(S10)_____

_____. 听力原文：(S1) achievements (S2) prevention (S3)

hospitals (S4) facilities (S5) excellence (S6) available (S7) employee

我要收藏 (S8) They pay some money each month to insurance companies, which then pay for medical expenses when they are needed. (S9) Then when they need medical treatment, they go to the hospital without paying more money. (S10) These programs make medical care available to those without their own health insurance.
