mysql> select \* from test where date\_col >= date\_sub(now(), interval 30 day);  
mysql> select date\_col, DAYOFWEEK(date\_col) from test where date\_col >= date\_sub(now(), interval 30 day);  
mysql> select date\_col, WEEKDAY(date\_col) from test where date\_col >= date\_sub(now(), interval 30 day);  
mysql> select date\_col, DAYOFMONTH(date\_col) from test where date\_col >= date\_sub(now(), interval 30 day);  
mysql> select date\_col, DAYOFYEAR(date\_col) from test where date\_col >= date\_sub(now(), interval 30 day);  
mysql> select date\_col, MONTH(date\_col) from test where date\_col >= date\_sub(now(), interval 30 day);

mysql> select MONTH(1998-02-03);
