I am glad to be here for this interview. It is my great pleasure to introduce myself to all of you. My name is\*\*\*, 27 years old, born in Ganzhou, Jiangxi province. I graduated from Jiangxi Medical College, my major is clinical medicine. Because of my diligence in study, I gained the scholarships each year, and in 2000, I gloriously took part in the Chinese Communist Party. After graduation, I went to work in TaiZhou hospital. It lies in LuQiao, Zhejiang province. It is a general hospital and the center of medicine for Taizhou people. In the first two years, as a house surgeon, I accepted the normal and strict training. In 2003, I acquired the licence for practitioners, at the same year, I am cheerful to be distributed to the department of cancer surgery. During the clinical practice, I have more and more interest in oncology, but, I knew deeply that I have no adequate knowledge to be competent to the clinical practice. Furthermore, I believe that a qualified cancer surgeon should have abundant, systematic and fullscale medical knowledge and must experience more normal and strict training. So, I determined to pursue the master's degree in Fudan University. In order to prepare well to the tests for entrance for postgraduation, I quit my job in July, 2005 and try my best to be ready for the tests. Now all my hard work has got a good result since, I have got a chance to be interviewed by all of you. I always believe that a

docter will easily lag behind unless he keeps on learing. I am a deligent, studious, and creative person. Of course, if I am given a chance to study in fudan university, I will study harder, and, with your guidance and help, I wish I can, someday, like you, devote myself to the great cause of conquering the tumor. That ' s all, Thank you for your attention。 100Test 下载频道开通 , 各类考试题目直接下载。详细请访问 [www.100test.com](http://www.100test.com)
