There are more and more people looking for jobs every year, but they have different views about what kind of job they should choose. [1]Some of them focus their attention on the jobs that promise high salaries. [1]Others show

a preference for those jobs that offer chances to learn skills and advancement possibilities. [2]People holding the first view usually think that more money will result in more happiness. [3]With a lot of money in hand, they will be able to enjoy a rich life. Otherwise, they will suffer from depression [4]due to lack of enough money.

[2]However, the holders of the second view argue that one should develop his skills as roundly as possible. [5]It is career development that counts most. Without development, you will be outrun by others and fall behind the times sooner or later. In my view, career development is the right choice because career may give us long term satisfaction [6]while high salary would give us short term happiness.

Besides, [7]generally speaking, a good career development will bring high salaries sooner or later. So I will [8]give my vote to the career development first and then high salaries. 【亮点点评】 [1]用于引出两种不同的观点或倾向。 [2]用于对比分析两种观点各自的理由。 [3]“with 宾语 宾补”的独立结构充当状语。 [4]“因为缺钱”。 [5]强调句型，此处是强调句子的主语。 [6]while 引导比较状语从句，意为“然而”。 [7]“一般来说”。 [8]“选择”。
