Direction: For this part, you are allowed 30 minutes to write a short essay on the topic Private School? You should write at least 150 words following the outline given below in Chinese: 1.当前，社会上有很多私立学校和培训学校；我要高分 2.私立学校的利与弊； 3.你的看法。 范文： It can be noticed that a large number of private schools or training organizations become a new landscape in education. When you read newspapers, when you watch TV, when you walk on the road, you will inevitably see lots of advertisements about private schools. There are private schools mainly dealing with foreign languages, computers, music and sports. However, is it a good or bad thing to have so many private schools? As a coin has two sides, so are the private schools. On the one hand, private schools can meet the special needs of the society or the particular requirements of people. On the other hand, they often bring people extra burden because of comparison and competition. When asked to decide whether we should have a society without private schools or a society with private schools, I will not hesitate a moment to prefer the latter. Although attending a training course will result in the extra cost or burden, it is of tremendous merits in preparing my work and cultivating my skills. Every individual faces the problem of choosing an occupation after graduating from university, which is of great importance in one's whole life. An appropriate occupation makes a

man work with vigor and zest. Besides, it is beneficial for both the individual and the country. To make an advisable choice, a graduate should take into account at least two aspects, namely, individual ' interest and the demand of the society. Only when the two aspects are connected, can a man show his ability and talent to the best advantage. If the two factors conflict, the former, in most cases, should give way to the latter, for it is interests that stimulate one ' s vigor and potentials. In regard to my choice in the future, I want to work as an interpreter. I am keen on learning foreign languages, English in particular. Moreover, in the contemporary society, international exchange in economy and culture has been growing significantly. However, competent interpreters are far from enough. So I am determined to be a qualified interpreter. 100Test 下载频道开通 , 各类考试题目直接下载。详细请访问 www.100test.com
