1 Question 14-20 题型：Locating information Which paragraph contains the following information? Q1:examples of wildlife other than bats which do not rely on vision to navigate

by Answer: B Information in the text: Paragraph B (line 2): Bats are not the only creatures to face this difficulty today. Obviously the night-flying insects that they prey on must find their way about somehow. Deep-sea fish and whales have...

Q2:how early mammals avoided dying out Answer: A Information in the text: Paragraph A (line 8): ...our mammalian ancestors probably only managed to survive at all because they found ways of scraping a living at night.

Q3:why bats hunt in the dark Answer: A Information in the text: Paragraph A (line 4): Given that there is a living to be made at night, and given that alternative daytime trades are thoroughly occupied, natural selection has favoured bats that make a go of the night-hunting trade. Q4:how a particular discovery has helped our understanding of bats

Answer: E Information in the text: Paragraph E (line 6): ... and much of our scientific understanding of the details of what bats are doing has come from applying radar theory to them.

Q5:early military use of echolocation Answer: D Information in the text: Paragraph D (line 11): After this technique had been invented, it was only a matter of time before weapons designers adapted it for the detection of submarines. 100Test 下载频道开通，各类考试题目
