playing organized sports is such a common experience in the United States that many children and teenagers take them for granted. This is especially true for children from families and communities that have the resources needed to organize and run sports programs and make sure that there is easy access to participation opportunities. Children in low-income families and poor communities are less likely to take organized youth sports for granted because they often lack the resources needed to pay for participation fees, equipment, and transportation to practices and games. Their communities do not have resources to build and maintain sports fields and facilities. Organized youth sports first appeared during the early 20th century in the United States and other wealthy nations. They were originally developed by some educators and developmental experts who felt that the behavior and character of children were influenced by their social surroundings and everyday experiences. This led many people to believe that if you could organize the experiences of children in certain ways, you could influence the kinds of adults that those children would become. This belief that the social
