In my opinion, the tour to Wuqiao Acrobatics World should focus on the experiences and feelings more than the academic knowledges. The tourists who intend to visit this theme park want to satisfy the curiosity about the Chinese acrobatics, they prefer watching and participating rather than listening. So if I was the guide escort a tour group to Wuqiao Acrobatics World, I will not prepare a long commentary to disturb my tourists in the scenic spot. Most of the interpretation should be delivered on the couch and outside the park. What the guide need doing inside the park is only explaining something the tour members are not familiar with or feel puzzled. The commentary has 3 parts: *Part one :Introduction about Chinese acrobatics. Chinese acrobatics is the Chinese peoples favourite art, which is originated in people ' s daily life and work. Has absorbed from singing, dancing and other various performing forms, the Chinese acrobatics has got a great development. With about 2500 years history, Chinese acrobatics still shines as one of the brightest stars in Chinese culture. It has won the title of “ the kingdom of Acrobatics ” in the world. The Chinese acrobatics group have traveled to many countries and regions throughout the world and won fans everywhere. *Part two: introduction about wuqiao acrobatics and Wuqiao Acrobatics World
1) Why wuqiao is

famous?wuqiao county is well known by Chinese people and foreigners as the birthplace of the famous Chinese acrobatics, which with a long acrobatics history and perfect performing arts. It is said that the local people there are all able to perform acrobatics more or less. no matter he is 99 years old or just learning to walk. So acrobatics has become a very important part of the local people ' s daily life.2) The uniqueness of the Wuqiao Acrobatics World?Wuqiao Acrobatics World is built in 1992, as the only acrobatics theme park in the world, it also became the largest performing arts appreciating park in china.Almost all the unbelievable performances can be seen in this park. For example, a mouse can be trained to wive or perform on the tightrope.When we talking about Tianqiao of Beijing, we must mention “ The Eight Eccentrics of Tianqiao, ” and they were the creator of bottom culture of the imbalanced society. They had made greatly contributions to our national fork art and its development. In wuqiao acrobatics we also can see the scenes of the past Tianqiao, which are attractive and wonderful.*Part three: What we should learn from acrobatics?(When the group has finished the visiting in the park)Acrobatics is beneficial for the community and education. The actors interpret the beauty of the art with the limits of life, make successes more encouraged and losers never discouraged. So the tour to appreciate acrobatics also has a role of education, enlightens people by the meaning of life, makes them enjoy life and never gave up. 100Test 下载频道开通 , 各类考试题目直接下载。 详细请访问 www.100test.com
