阅读下面这篇短文，短文后列出了七个句子，请根据短文的内容对每个句子作出判断。如果该句提供的是正确信息，请在答题卡上把A涂黑。如果该句提供的是错误信息，请在答题卡上把B涂黑。如果该句的信息文章中并没有提及，请在答题卡上把C涂黑

The Cold Places

The Arctic is a polar region. It surrounds the North Pole. Like Antarctica, the Arctic is a land of ice and snow. Antarctica holds the record for a low temperature reading ----- 125 Fahrenheit below zero. Readings of 85 degrees below zero are common in both the Arctic and Antarctica. Winter temperatures average 30 degrees below zero in the Arctic. At the South Pole the winter is about 73 degrees below zero. One thing alone makes it almost impossible for men to live in Antarctica and in parts of the Arctic. This one thing is the low temperature --- the killing chill of the far North and the polar South. To survive, men must wear the warmest possible clothing. They must build windproof shelters. They must keep heaters going at all times. Not even for moment can they be unprotected against the below-zero temperature. Men have a way of providing for themselves. Polar explorers wrap themselves in warm coats and furs. The cold makes life difficult. But the explorers can stay alive. What about animals? Can they survive? Do we find plants? Do we find life in the Arctic and the Antarctica? Yes, we do. There is life in the oceans. There is life on land. Antarctica, as we have seen, is a cold

place indeed. But this has not always been the case. Expedition scientists have discovered that Antarctica may have been much like our own. Explorers have discovered coal in Antarctica. This leads them to believe that Antarctica at one time was a land of swamps and forests. Heat and moisture must have kept the trees in the forests alive.

1. As discovered by expedition scientists, Antarctica has not always been so cold as it is today, so has the Arctic. A. Right B. Wrong C. Not mentioned
2. Winter temperatures average 85 degrees below zero in Antarctica. A. Right B. Wrong C. Not mentioned
3. The Arctic and Antarctica are no mans lands because of their notorious coldness. A. Right B. Wrong C. Not mentioned
4. Polar explorers can stay alive without heaters and windproof shelters. A. Right B. Wrong C. Not mentioned
5. Despite the hostile environment, both animals and plants can be found in the oceans and on land in polar areas. A. Right B. Wrong C. Not mentioned
6. The lowest temperature that man has ever known was recorded in Antarctica. A. Right B. Wrong C. Not mentioned
7. At one time, the weather in Antarctica was so warm and damp that trees grew there. A. Right B. Wrong C. Not mentioned
