Scientists already know that the two sides of the brain control different functions-one controlling the sense of space, for example, the other controlling language. Some researchers believe that the different ways men and women use their brains evolved from ancient times, when cave men hunted and women cared for the children. Men had to have good aim. Women had to talk to the kids. 检验大脑的电流活动显示，女人通常是左右脑并用，而男人则比较常使用一边的大脑。科学家已经知道左右两边的大脑掌管不同的功能例如一边掌管空间感，另一边掌管语言。有些研究人员相信，男女使用大脑方式的差异从远古时代演化而来，当时穴居的男人负责狩猎，女人则负责照顾小孩。所以男人必须擅长瞄准，女人则必须和小孩说话。 编辑推荐：2009年下半年公共英语考试报名汇总 名师指导公共英语阅读考试技巧 公共英语pets三级全真模拟试卷 公共英语pets二级语法讲解汇总 100Test 下载频道开通，各类考试题目直接下载。详细请访问 www.100test.com
