```
java.io.BufferedInputStream. import java.io.BufferedOutputStream.  
import java.io.FileOutputStream. import
```

```
java.net.HttpURLConnection. import java.net.URL. import
```

```
java.net.URLConnection. /*. *读取网络照片，保存到本地 */
```

```
public class GetUrllmg { public static void getUrllmg(String  
URLName,String target) throws Exception {//URLName照片地址
```

```
// target本地地址 int HttpResult = 0. //服务器返回的状态 URL
```

```
url = new URL(URLName). //创建URL URLConnection urlconn
```

```
= url.openConnection(). // 试图连接并取得返回状态
```

```
码urlconn.connect(). HttpURLConnection httpconn =
```

```
(HttpURLConnection) urlconn. HttpResult =
```

```
httpconn.getResponseCode(). System.out.println(HttpResult). if
```

```
(HttpResult != HttpURLConnection.HTTP_OK) // 不等
```

```
于HTTP_OK说明连接不成功System.out.print("fail"). else { int
```

```
filesize = urlconn.getContentLength(). // 取数据长
```

```
度System.out.println(filesize). 100Test 下载频道开通，各类考试
