environmental protection has been in limelight recently. Some people maintain that protecting the environment is of considerable significance, but they take no actions. In this article, I intend to explore its causes and offer some possible measures.

第二段（分析原因）本段内容概要：人们嫌麻烦，损害某些行业的经济利益，人都自私推卸责任，人们的环保意识不强 The primary source of this problem is that environmental protection may bring some inconvenience to individuals' daily life. In addition to this, efforts to protect the environment will probably damage the economic interests of some industries. Another contributing factor is that the selfishness deeply rooted in human nature is likely to urge individuals to shirk this responsibility to others. Finally, citizens are not motivated to take actual actions for the sake of environmental protection.

第三段（解决方案）本段内容概要：加大宣传以提高公民环保意识，制定相关法律来惩罚污染环境的行为 政府应该给高污染企业提供补偿让他们关门 In order to overcome this problem, I believe we must strengthen our efforts to publicize the importance of environmental protection and thus promote citizens' motivation to take actions. It is also necessary for us to enact relevant laws to punish the behaviors of polluting the environment. Another positive step would be to provide those highly polluted industries with compensations for them to close down.

第四段（结尾）In conclusion, I believe we must all recognize how serious this problem is. For the sake of human existence on this planet, it is suggested that joint efforts across the border should be made to rescue the only homeland on which we have survived for millions of

years. 第二篇RS（即原因 解决方案的题型）例题2010年1月23日 第一段（开头） In our time and age, much debate has taken place about social equality. The disparity between the wealthy and the impoverished is being enlarged. In this article, I intend to explore its sources and provide some possible measures. 第二段（分析原因） 本段内容概要：社会资源分配不均，社会保障/福利系统不完善，家庭背景不同 The primary cause of this problem is that social resources are allocated unevenly among citizens. Furthermore, public welfare system fails to cover those disadvantaged groups in reality. Another contributing factor is that individuals' income is always determined by their capabilities. Finally, people's success is also directly related to one's family background. 第三段（解决方案） 本段内容概要：富人应该帮助穷人摆脱贫困，向富人征更多的税，完善社会福利体系/给弱势群体更多的支持，大力推动慈善事业 In order to address this problem, I believe we should foster the development of charity organizations and conduct more fund-raising activities. It is also necessary for us to levy higher taxes from the wealthy. Another positive step would be to provide disadvantaged groups with more support such as free education and medical care. Besides, the haves are encouraged to help the poor get rid of poverty. 第四段（结尾） For the sake of social solidarity, it is vital that we take more measures to bridge the disparity between the rich and the poor. If this problem fails to be solved properly, a large number of crisis and dangers will emerge. 第三篇RE（即原因 影响的题型）例题2007年12月15日 第一段（开头） The issue of TV news programs has aroused wide concern in recent times. Viewers

are exposed to an increasing number of violence and disaster images on TV news programs. In this essay, I intend to analyze its sources along with some effects on the individual and the society. 第二段（分析原因）本段内容概要：吸引观众的眼球，灾难和暴力事件在增多，媒体科技的发展 The chief cause of this issue is that these images are designed by the media to catch viewers' attention. In addition to this, the incidences of disasters and violence are on the rise. Another contributing factor is that the development of media technology helps individuals to access what's happening in the world. 第三段（分析影响）本段内容概要：引发公众恐慌，误导青少年，犯罪率升高从而导致社会不稳定 Firstly, nobody would disagree that violence and disaster images creates panic among the citizens. Besides, these images are likely to produce adverse effects on the physical and mental fitness of teenagers. It is also important for us to recognize that the conviction rate will increase and this may pose a threat to social stability. 第四段（结尾）百考试题在线考试中心 In reality, this problem is unlikely to be resolved in the short term. However, it is by no means insurmountable, and I am convinced that the government should enact relevant laws to put proper restrictions on the content of media coverage. 第四篇R.LB（即原因利弊的题型）例题2007年10月13日 第一段（开头） The discussion about academic qualification has triggered a new round of heated debate in recent years. Some employers assert that academic qualifications play a more important role in their selection of employees than life experiences and personal qualities. In this essay, I will analyze its sources and offer my own perspective on this

development. 第二段（分析原因）本段内容概要：学历越高能力越强，学历更容易评判，社会对学历的过度崇拜 The primary source of this issue is that higher academic qualifications mean higher capability. Moreover, academic qualification serves as a more efficient way to identify talents for employers. Another contributing factor is that the society harbor excessive enthusiasm and trust towards academic qualifications. 第三段（分析利弊）本段内容概要：助长考试教育的风气，人才流失，滋生社会不稳定 From my point of view, this is a curse for both individuals and the society. Firstly, it is an undeniable fact that it may add fuel to the culture of exam-oriented education and neglect the cultivation of students in other important areas. In addition to this, brain loss is another problem we have to face. Besides, this is likely to cause resentment among citizens of lower academic qualifications and pose a threat to social stability. 第四段（结尾）By way of conclusion, I believe that this issue is likely to become even more important in the future. It, therefore, demands our further consideration. 相关推荐：[#0000ff>雅思写作里中国学生常犯错误解析](#) [#0000ff>雅思写作范文：老外9分例文及点评](#) 100Test 下载频道开通，各类考试题目直接下载。详细请访问 www.100test.com
