

China ' s gross ocean product tops 1.3 trln yuan in H1 金融英语考试 PDF转换可能丢失图片或格式 , 建议阅读原文

https://www.100test.com/kao_ti2020/644/2021_2022_China_E2_80_99s__c92_644683.htm Chinas gross ocean product (GOP) topped

1.386 trillion yuan (202.96 billion U.S. dollars) in the first half, according to an initial assessment by the State Oceanic

Administration (SOA). 我要收藏 The figure represented an increase of 6.9 percent over the same period last year, the SOA said in a report published on its website Sunday. GOP is a component of a nations gross domestic product, reflecting development of ocean-relevant industries, including oil and gas production, fisheries and maritime transport. The Chinese economy expanded 7.9

percent year on year in the second quarter, as massive pump-priming and record lending pushed for a rebound from the worst growth in a decade, official data showed Thursday. The figure is within the market expectation between 7.5 percent to eight

percent. Full story Chinas retail sales in the first half year rose 15 percent to 5.87 trillion yuan (859.60 billion U.S. dollars) from a year earlier, the National Bureau of Statistics (NBS) said Thursday. The

growth rate was 3.7 percentage points higher than the same period last year. Full story Chinas fixed-asset investment surged in the first half of this year as the worlds third largest economy increases spending on factories, property, roads and other facilities to counter falling exports and fuel the economic growth. Chinas fixed-asset investment in the first half year rose 33.5 percent from a year earlier to 9.132 trillion yuan (1.34 trillion U.S. dollars), the National Bureau

of Statistics (NBS) announced Thursday. 100Test 下载频道开通，
