Section A Will Tourism Bring Harm to the Environment? In

recent years, tourism has developed rapidly in China. Many people  
believe that tourism produce positive effects on economic growth

and we should try our best to promote tourism. But what these people fail to see is that tourism may bring about a disastrous impact on our environment. As for me, I'm firmly convinced that too much tourists bring harm to the environment. The bad impact of tourism on the environment has mainly expressed itself in various ways. One way is the process of exploiting a new scenic spot. In order to attract tourists, a lot of artificial facilities have been built, which have certain unfavorable effects on the environment. This process usually breaks the ecological balance of the area. In some mountainous places, trees are being cut down to build hotels for others to see and explore the beauty of the mountains. Then land slides and mud-rock flows come up. Another way the development of tourism has damaged the environment occurs when tourists go to scenic spots. Some tourists don't have the awareness to protect the environment, and ignorantly throw their garbage here and there. Some people even kill the local wildlife to eat, which badly damages the balance of the natural environment. It is wrong to sacrifice the environment for the growth of tourism. We must keep in mind that too much tourists bring harm to the environment. We need to find a balance between satisfying the needs of tourists and reducing to a minimum the pollution they cause.

Section B Dear Lily, I know you 're looking for a part-time job in the coming summer vacation. And I have just seen an ad for a private English tutor for a schoolboy on the campus. Since you 're good at English and like teaching, I think this job is very suitable for you. It will help you both earn some money and practice yourselves. So please think about it.
