

如何动态修改列表视图定义计算机等级考试 PDF转换可能丢失图片或格式，建议阅读原文

[https://www.100test.com/kao\\_ti2020/644/2021\\_2022\\_E5\\_A6\\_82\\_E4\\_BD\\_95\\_E5\\_8A\\_A8\\_E6\\_c98\\_644931.htm](https://www.100test.com/kao_ti2020/644/2021_2022_E5_A6_82_E4_BD_95_E5_8A_A8_E6_c98_644931.htm) 今天被人问到：  
在MOSS中，有一个列表，我们希望根据用的特征动态切换内容显示。这个筛选条件很复杂，我们没有办法直接使用视图的筛选来实现。应该怎麽办呢？百考试题论坛 我的解决方案如下：  
第一步：webpart的部分

```
using System;
using System.Runtime.InteropServices;
using System.Web.UI;
using System.Web.UI.WebControls.WebParts;
using System.Xml.Serialization;
using Microsoft.SharePoint;
using Microsoft.SharePoint.WebControls;
using Microsoft.SharePoint.WebPartPages;
using System.Web;
namespace SPViewPart {
    [Guid("3179933a-c04a-432d-a6f6-4e9e41cac3f2")]
    public class SPViewPart : System.Web.UI.WebControls.WebParts.WebPart {
        public SPViewPart() {
            this.ExportMode = WebPartExportMode.All;
        }
        protected override void Render(HtmlTextWriter writer) {
            // TODO: add custom rendering code here.
            SPWeb web = SPContext.Current.Web;
            SPList list = web.Lists["任务"];
            SPView view = list.Views["所有任务"];
            writer.Write(HttpUtility.HtmlEncode(view.Query));
        }
        protected override void OnInit(EventArgs e) {
            SPWeb web = SPContext.Current.Web;
            web.AllowUnsafeUpdates = true;
            SPList list = web.Lists["任务"];
            SPView view = list.Views["所有任务"];
        }
    }
}
```

来源：考试大 SPView view = list.Views["所有任务"]。  
writer.Write(HttpUtility.HtmlEncode(view.Query)); //这里只是为了调试，显示出来这个内容，完全可以不显示的 }  
protected override void OnInit(EventArgs e) {  
 SPWeb web = SPContext.Current.Web;  
 web.AllowUnsafeUpdates = true;  
 SPList list = web.Lists["任务"];  
 SPView view = list.Views["所有任务"];  
}

string query = "100Test 下载频道开通，各类考试题目直接下载
