

oraclespatial空间数据表的初始化Oracle认证考试 PDF转换可能丢失图片或格式，建议阅读原文

https://www.100test.com/kao_ti2020/645/2021_2022_oraclespat_c102_645103.htm "gklt"> 项目快完了，最近打算做点oracle spatial

的小小总结，从最简单的开始：一、oracle spatial空间数据表的初始化 Sql代码 --1.修改表结构 ALTER TABLE

```
Dev_Acrossbox ADD ( LOCATION MDSYS.SDO_GEOMETRY default null , MI_STYLE VARCHAR2(254) default null ,
```

```
MI_PRINX NUMBER(10) default null ). --2.插入METADATA属性数据 INSERT INTO USER_SDO_GEOM_METADATA
```

```
VALUES( DEV_TOWER_ACTL, location,
```

```
MDSYS.SDO_DIM_ARRAY(
```

```
MDSYS.SDO_DIM_ELEMENT(X,-180,180,0.0011119487),
```

```
MDSYS.SDO_DIM_ELEMENT(Y,-90,90,0.0011119487) ), 8307 ).
```

```
--3.创建空间索引 CREATE INDEX
```

```
IDX_SPATIAL_Dev_Acrossbox ON Dev_Acrossbox (location)
```

```
INDEXTYPE IS MDSYS.SPATIAL_INDEX. 100Test 下载频道开
```

```
