I ' ve got almost every collection of Eric Clapton, a very popular American guitarist and whenever I want to escape from my laborious homework, all that I do is just use my walkman to enjoy Eric ' s beautiful lyrics! I will have a blast! And, According to my mom ' s memory, I have been enjoying singing in the public ever since I was a kindergarten boy! Then, I started my own rock band and made several records of my songs and used them as gifts to my friends in my high-school graduation ceremony. And now I still love singing songs but only to myself but to my beloved girl as well. I am nuts about music! (119) 2.政治/ 一次XX的经历 I may go into politics, just like Bill Clinton. I used to run for student body president of my university. Because if I want to become a politician one day, I should get some experience under my belt now. On that day, I gave an election speech in front of 1500 people including my best friends and my teachers. It so was fortunate that none of them noticed I was so nervous that my voice couldn ' t help trembling. I kept telling myself that I must hold on, and at last I won it by a hair, just 10 votes. My girlfriend Alexandre rushed onto the stage and gave me a quick kiss. That really made my day! 100Test 下载频道开通, 各类考试题目直接下载。详细请访问 www.100test.com
