PUBLIC DEMAND FOR IT。于是点明了娱乐很重要。最后：再一次点题，具体怎么点的已经忘了。SORRY。我要收藏大概就这个样子了，思路我个人觉得很明确，从分析到点交卷我用了25分钟，剩下5分钟不想检查了，觉得也没有什么大问题，因为当时自己的感觉就很好，我考完觉得应该28以上，30分确实有点出乎意料。下面这篇我觉得也应该是30分呵呵，好像我很自恋，不过我真的是这么觉得：TOPIC: many people believe that it is very important to make a large amount of money while others are satisfied to earn a comfortable living. Analyze each viewpoint and take a stand. Not long ago, there was a survey on my campus asking students what they expect for their future after they graduate. Almost 90% of them chose either to earn a comfortable living or to make a lot of money. Since Ive been always dreaming of becoming a millionaire, I chose to make a lot of money. In my opinion, earning a comfortable living is a basic requirement for the future. Some people are not that ambitious. They just hope that they can find a decent job that enables them to support their family and their childrens education. In face of this global economic crisis, more and more people are going unemployed. Therefore lowering their standard of living would be a good option for them. I guess a lot of people choose to earn a comfortable living because they realize demanding something more is simply too hard to come true under current circumstance. However I chose the other option because I think earning a lot of money can give myself more opportunities. For example, if I have a lot of money, then on one hand I have more chances to meet with other rich people. Therefore

I have more opportunities to do business with them and attract more investment. Eventually I will be able to make more and more money. On the other hand, if I don't want to work that hard anymore, I can retire at anytime. I don't need to worry about supporting families and myself as long as I have a strong economic base. What's more, it will enable me to have a very decent living. Earning a lot of money not only offers me more opportunities, but also benefits other people. I always sympathize with people living in poor countries. They are so poor that they don't even have right to ask for their basic living requirement, such as food and water. If I had enough money, I would donate money to them directly to help them. Of course it would not help everyone, much less solve the overall problem, but at least some people will benefit from this. In addition, I can also raise a fund to provide them education. This way they will have appropriate knowledge to improve their own situation. In this competitive world, having a lot of money surely makes me more competent. However the fact that it allows me to help more people is what makes more appealing to me. 100Test 下载频道开通 , 各类考试题目直接下载。详细请访问 www.100test.com
