A recent investigation shows that about 70 percent of middle school students in cities have private tutors. Such a popular practice indicates that parents are attaching greater importance to their childrens education. However, private tutoring has both advantages and disadvantages. On the one hand, many parents have not enough ability or time to help their children in study. Private tutoring is a good solution to this problem. On the other hand, private tutoring has its own disadvantages. For one thing, it takes up so much of the pupil ' s time that he can hardly find enough time for rest and entertainment. Only in this way can a new generation be healthily brought up. 点击进入：英语四级段落写作基本理论与技巧 100Test 下载频道开通，
