范文一： I am the part of the Green Campus The Olympic Games was hold in our country last year. “ Green and Environment-protecting ” is one of the Three Themes of it. Our government has made a great effort in order to protect the environment, build more green project to keep the ecological balance, push the recycling economy, and protects the water resource. As a university student, we should play an active role in the actions aimed at the realization of green and environment-protecting homeland. We will start it from ourselves, our classmates, our friends and other people around us. We can stop cars running through our campus streets. And in the bathrooms, we will never leave the water running on after using. We will never throw things everywhere without thinking, They are wrong. These things are taking place everyday everywhere in our school. So, lets begin to act! Dont talk loudly in public places. Turn off the water tap after using it. After washing the clothes, use it to flush the toilet. Go to school by bike or by bus instead of by private car. Save your pocket money and contribute to environmental protection organizations. Collect waste paper or bottles for recycling. Plant more trees and flowers. We can start from every little thing around us to truly realize the green campus. Publicize the theme of green and environment-protecting, and let us really reach the “ Green and Environment-protecting ” goal in our generation. This is the

responsibility of everyone who loves life and peace. 范文二 : To Create Green Campus Recently, more and more colleges have realized the great importance of creating green campus, and it has become a new trend throughout the whole country. Then, what does it mean when we refer to green campus? On one hand, the environmental protection is essential and undeniable, which is the premise to this concept. On the other hand, it is far from enough to meet the overall goals of green campus to simply maintain green environment. Instead, it also requires the construction of active cultural atmosphere among all the staff and students by our mutual efforts. Therefore, in order to create green campus, first, it is necessary that everyone consider themselves as the host of our campus and be aware of the inspirations green house has brought to us. More importantly, actions need to be taken to achieve the aims. Last but not least, we can spread the spirit to a wider area to call upon more people to join this promising project. 1. B 2. D 3. C 4.
