My Opinion on Campus Lectures In recent years, more and more lectures are being given on campus. They are organized either by the departments or by the students unions with an aim to improve the students quality both mentally and academically. These lectures are usually in series and on different topics, such as arts, life,

economy, psychology and world issues.来源：考试大的美女编辑们

Generally speaking, the advantages of good lectures are various. First they broaden the students knowledge horizon and cultivate interest in different fields. Second, they make the life of the students colorful and enjoyable. With these merits, lectures are just

complementary and subordinate to our school work. If students spend too much time attending lectures, their regular study will be affected and disturbed. So, in my opinion, the students should, on

the one hand, do their class work and homework well first, on the other hand, set as more time as possible to attend good lectures

which are helpful to our life and study. 相关推荐：大学英语四级考试写作指导四方谈 英语四级英译汉的目的,要求和评分
