Cloze Test 6 Industrial safety does not just happen. Companies with low accident rates plan their safety programs, work hard to organize them, and continue working to keep them active. When the work is well done, a high percentage of accident-free operations is established and time lost due to injuries is kept at a minimum.来源：考试大  
Successful safety programs may vary greatly in the emphasis placed on certain aspects of the program. Some place great emphasis on mechanical guarding. Others stress safe work practices by means of rules or regulation. Others depend on an emotional appeal to the worker. But, there are certain basic ideas that must be used in every program if maximum results are to be obtained. There can be no question about the value of a safety program. From a financial standpoint alone, safety pays. The fewer the injuries, the better the workman's insurance rate. This may mean the difference between operating at a profit or at a loss. 41.
