12\_E6\_9C\_88\_c84\_645326.htm saozhi"> 1 . My View on Fake Commodities (1998.1) 1. 假冒伪劣商品的危害。来源：考试大的美女编辑们 2. 怎样杜绝假冒伪劣商品。 My View on Fake Commodities Nowadays fake commodities have flooded almost every inch of the market. Wherever you are, whatever you do, it seems that you can hardly have fallen prey to them. In other words, it is highly probable that you have bought some of those fake goods or products of inferior quality. Needless to say, fake commodities have already done great harm to our society. On the one hand, they will ruin the good reputation of genuine products and disturb the balance of the market. On the other hand, the prevalence of such products has hindered interpersonal relationship and resulted in the decline of public morality. As a consequence, they have wasted exhaustible resources, endangered people ' s precious life and health, and in the long run eroded public trust. Then, what should be done to do away with fake commodities? To start with, the government needs to tighten its inspection program and strengthen its enforcement policies. Secondly, honest businessmen should modify some long-accepted practices at the protection of their intellectual property right. Most important of all, we consumers will have to do a better job of learning how to distinguish between the genuine and the phoney and definitely say no to the fake ones. In one word, the coordinated effort of the whole society will put an end

to fake commodities. 2 . Changes in the Ownership of Houses (2003.6) 要求：1、根据上图描述该市住房产权的变化；2、分析产生这些变化的原因；3、说明这些变化对个人和社会产生的影响。 Changes in the Ownership of Houses As is shown in the chart, great changes have taken place in the ownership of houses in the city. There has been a steady decline in the percentage of state-owned houses from 75 in 1990 to 20 in 2000. On the contrary, the percentage of private houses has been on the rise. Several factors may account for the trend. For one thing, owing to the policy of reform and opening to the outside world, the past decade witnessed significant improvement in people ' s standard of living. In other words, they have had the means to purchase houses of their own. For another, people ' s ideas about consumption have undergone some radical changes. In the past, they were reluctant to spend, but now they are willing to buy. Anyway, it is much more comfortable to dwell in a house of one ' s own. These changes in the ownership have already had a positive effect on both individuals and society. Individuals, young people in particular, will be motivated to work harder to purchase a nest of their own. As a result, the housing industry will be boosted and more revenues will be raised to cover other sectors of our national economy. 100Test 下载频道开通，各类考试题目直接下载。详细请访问 [www.100test.com](http://www.100test.com)
