Each student was given the same resume but the applicant ' s picture was altered so that in some photos, her hair was golden, in some red and in some brown. The result-----with brown hair, the woman was rated more capable and she was offered a higher salary than when she had a golden or red hair. Other studies have found similar results. Many respondents rate women with golden hair as less intelligent than other people and red hair as more temperamental. Women with red or golden hair are victims of the common practice of stereotyping. A stereotype is a simplistic or exaggerated image that human carries in their minds about groups of people. For example, lawyers are shrewd and dishonest is a popular stereotype. Stereotyping can occur in public speaking classes when trying to choose a speech topic. Some males think that women are uninterested in how to repair cars or some females think that men are uninterested in creative hobbies, such as knitting a needlepoint. We should reject to stereotypes because they force all people in a group into the same simple pattern. They fail to account for individual differences and the wide range of characteristics among members of any group. Some lawyers are dishonest, yes, but many are not. Some

women are uninterested in repairing cars, yes, but some are enthusiastic with mechanics. Questions 33 to 35 are based on the passage you have just heard. Q33.
