【范文】 The Popularity of Getting Certificates on Campus
Recently, getting certificates has been brought into focus. The advertisements for training schools occupy a large proportion of the bulletin board, and booksellers fill their shelves with many reference books. And eager students spare their money and time for these courses and books. Getting Certificates has been beneficial in several aspects. The most important one is that with more certificates, students have access to more and better job opportunities. In

addition, they can make more contacts with the outside world in the course of getting certificates. However, every coin has two sides. The pursuit of certificates is no exception. Some students believe that the more certificates, the better it is. Getting certificates make the students become bookish easily. Some of them even neglect their routine learning in the process of getting certificates. As for as I ' m concerned, certificates certify students ' previous efforts. But whether these pieces of paper can benefit students or not, depends on what they have really gained. Therefore, before dazzling choices, we must have a clear attitude and scientific strategy, and then certificates are beneficial.

【点评】 文章以描述大学校园内各种证书的报考十分火热这一现象开始进入主题，逐步分析大学生考证的利弊，最后说明考证面前，我的选择。a large proportion of，make more contacts with，dazzling choices，have a clear attitude and scientific strategy等精彩句式的搭配使用，使文章增色不少。

模拟训练二 【范文】 On Drug Addicts As is shown in the graph above, we can see clearly that great changes have taken place in the age distribution of drug addicts. To be concrete, the teenage addicts only made up 10 percent of all the drugsters in 1982 while the ratio rose up to 65 in 2002. What has caused this problem? It seems to me that there are three reasons. First, teenagers ' fearless curiosity about everything new has led some of them into this marsh. Second, many of the young addicts turned for the first time to drugs for escape either from their failure in the national entrance exams or from their parents ' breakup. And above all, our education in the harmfulness of drugs has been far from adequate to

build teenagers' sound resistance to drugs. To sum up, the causes mentioned above must call for more of our concern. From the description above, we might have an overall understanding of the serious situation of drug addicts. For one thing, drug-taking does great damage to the health of drug users. For another, some drug users commit robbery or even murder their parents and relatives to get money to buy drugs, which poses a great threat to the social security and the social stability. Therefore, it is urgent for us to put an end to this trend. 【点评】 该预测题为社会热点话题，四级考试命题作文常考题材。本文属于图表作文的写作。根据四级图表作文命题规律，第一段文章描述了图表中所反映的我国吸毒者年龄的分布最近二十年的变化情况。第二段说明了产生这种变化的原因。最后一段陈述了吸毒无论是对个人的身体健康还是对社会的安全稳定都构成了巨大的威胁，并作出呼吁。文中亮点词汇有 to be concrete, rose up to, call for more of our concern, have an overall understanding of, commit robbery, poses a great threat to, put an end to 等等，为文章添彩。
