General Motors, and Honda ' ceased production of battery.powered cars in 1 999, to focus on fuel cell and hybrid electric gasoline engines, which are more attractive to the consumer. Ford has now announced it will do the same. Three years ago the company introduced the Think City twoseater car and a golf cart called the THINK, or Think Neighbor. It hoped to sell 5, 000 cars each year and 10, 000 carts. But a lack of demand means only about I, 000 of the cars have been produced , and less than 1. 700 carts have been sold so far in 2002. "The bottom line is we don 't believe that this is the future of environment transport for the mass market. "Tim Holmes of Ford Europe said on Friday. "We feel we have given electric our best shot " The Think City has a range of only about 53 miles and up to a six-hour battery recharge time. General Motors 'EVI electric vehicle also had a limited range。of about 100 miles.来源:考试大 The very expensive batteries also mean electric cars cost much more than petrol-powered alternatives. An electric Toyot~RAV4 EV vehicle costs over\$42, 000 in the US, compared with just \$17, 000 for the petrol version. Toyota and Nissan... are now the only major automanufacturers to produce electric vehicles.www. E xamda.CoM

考试就到百考试题 "There is a feeling that battery electric has been given its chance. Ford now has to move on with its hybrid program ", and that is what we will be judging them on, "Roger Higman, a senior transport campaigner at UK Friends of the Earth , told the Environment News Service. Hybrid cars introduced by Toyota and Honda in the past few years have sold well. Hybrid engines Offer Greater mileage than petrolonly engines, and the batteries recharge themselves. Ford says it thinks such vehicles will help it meet planned new guidelines " on vehicle emissions " in the U.S. However, it is not yet clear exactly what those guidelines will permit.In June, General Motors and Daimler Chrysler won a court injunction, delaying by two years Californian legislation requiring carmakers to offer 100, 000 zero-emission and other lowemission vehicles in the state by 2003. Car manufacturers hope the legislation will be rewritten to allow for more low--emission, rather than zeroemission, vehicles. 1. What have the Ford motor company. General Motor 's and Honda done concerning electric cars? A) They have started to produce electric cars. B) They have done extensive research on electric Cars C) They have given up producing electric cars. D) They have produced thousands of electric Cars 2. According to Tim Holmes of Ford Europe

, battery-powered cars A) will be the main transportation vehicles in the future B) will not be the main transportation vehicles in the future. C) will be good to the environment in the future D) will replace petrolpowered vehicles in the future. 3. Which auto manufacturers are still producing electric vehicles? A) Toyota and

Nissan B)General Motor 's and Honda C)Ford and Toyota D) Honda and Toyota 4. According to the eighth paragraph, hybrid cars A)offer fewer mileage than petrol driven cars B)run faster than petrol driven cars C)run more miles than petrol driven cars D)offer more batteries than petrol driven cars 5. Which of the following is true about the hope of car manufacturers according to the last paragraph? A)Low-emission cars should be banned. B)Only zero-emission cars are allowed to run on motorways. C)The legislation will encourage car makers to produce more electric cars. D)The legislation will allow more 10w.emission to be produced. 编 辑推荐:为帮助广大学员有效备考,我们特推出了职称英 语2010年网络辅导课程,相信会让大家有耳目一新的视听感受 现在报名职称英语辅导,赠送 2009年精品课程及考试E币。 点击查看详情》 相关推荐:2010年职称英语理工类完型填空 练习汇总 2010年全国职称英语考试六大题型复习攻略 100Test 下载频道开通,各类考试题目直接下载。详细请访问 www.100test.com
