The Story of Lani Five-year-old Lani still takes seven medicines with her breakfast every morning. “ She ’ s very good about it ” says her father David.Lani is alive today because of her father David , in more than one way.when she was one year old she received part of her father ’ s liver in a livertransplant operation.Lani was born with a liver illness . _____ (46) Doctors advised that a transplant was the only way in which she would live. The operation lasted 12 hours and needed two teams , one for the father and one for thedaughter _____ (47)In these cases , the donor ’ s liver grows to normal size in about eight weeks。 and t11e child ’ s liver becomes smaller. Lani spent three weeks in hospital after the operation.Because the receiver ’ s body tries to reject the new organ , the patient has to be given special drugs _____ (48)采集者退散 Although David left hospital after 10 days , he didn ’ t return to work until after three months.In order to reach the liver, the doctors have to cut through the stomach wall , which is strong and full of muscle.It therefore takes a long time to recover after this operation. _____ (49)So far , only 16 of these livertransplant operations have been carried out in Britain. _____

(50) Doctors say, " If possible , we prefer to take a liver from a dead don not, usually a parent. " Lani still has to look after her health , and she gets more tired than other children of the same age , but doctors hope that she will continue to get stronger and stronger. A She had one operation when she was six weeks old , which was not successful. B While these drugs are given , it is important that the patient does not catch any illness , not even a cold. C In this operation a piece of liver, weighing about 250--300 grams , was removed from the father and transplanted into the daughter. D David quickly recovered from the operation. E However, they are more common in North America and Japan. F David was finally able to ride his bike again after about a year. 答案解析来源：考试大 46 A 文章第一段介绍说，如今五岁的Lani在一岁的时候做了肝移植手术，父亲将自己的肝的一部分给了女儿。为什么要做这个手术呢?这是因为Lani生下来便有肝病。根据上下文，空格处应填出生后至手术前曾采取过的措施，即六周大的时候，她曾做过手术，但是不成功。 47 C 文章第二段具体介绍手术情况。根据空格后句子的内容，空格处应填有关捐肝的内容。 48 B 有了空格前一句最后一词的提示，空格处应填的句子也就不难选择了。 49 F 此段中i空格前的句子都在将Lani父亲手术后的恢复情况及其原因，因此空格处的句子也应与他的恢复有关。 50 E 空格前一句讲的是肝移植在英国的进展，空格处应首选与其进行比较的句子。 相关推荐：2010年职称英语理工类词汇重点难点 2010职称英语理工B词汇选项考点精华 100Test 下载频道开通，各类考试题目直接下载。详细请访问 www.100test.com
