Crashed Cars to Text Message for Help There is no good place to have a car crash but some places are worse than others . In a foreign country , for instance , \_\_\_1\_\_\_ to explain via cellphone that you are upside down<sup>1</sup> in a ditch when you cannot speak the local language can fatally delay the arrival of the emergency services . But an answer may be at hand . Researchers funded by the European Commission<sup>2</sup> are beginning tests of a system called E - merge that \_\_\_2\_\_\_ senses when a car has crashed and sends a text message<sup>3</sup> telling emergency services<sup>4</sup> in the local language that the accident has taken place . The system was \_\_\_3\_\_\_ by ERTICO , a transport research organization based in Brussels , Belgium<sup>5</sup> . Cars are fitted with a cellphone - sized device attached \_\_\_4\_\_\_ the underside of the dashboard which is activated by the same sensor that triggers the airbag in a crash . The device \_\_\_5\_\_\_ a cellphone circuit , a GPS<sup>6</sup> positioning unit , and a microphone and loudspeaker . It registers the severity of the crash<sup>7</sup> by \_\_\_6\_\_\_ the deceleration data from the airbag ' s sensor . Using GPS information , it works out which country the car is in , and from this it determines \_\_\_7\_\_\_ which language to compose an alert message detailing precise location of the accident . The device then automatically makes a call to the local emergency

services \_\_\_\_8\_\_\_\_ . If the car ' s occupants are conscious , they can communicate with the operator \_\_\_\_9\_\_\_\_ the speaker and microphone . E - merge also transmits the vehicles make8 , color and license number , and its heading9 when it crashed , which in turn indicates on which side of a multi - lane highway it ended up . This \_\_\_\_10\_\_\_\_ the emergency services find the vehicle as soon as they arrive on the scene . “ We can waste a large \_\_\_\_11\_\_\_\_ time searching for an incident , ” says Jim Hammond , a ( an ) \_\_\_\_12\_\_\_\_ in vehicle technology at the Association of Chief Police Officers in the UK . Tests will begin soon with police car fleets in the UK . Trials have already started in Germany , Sweden , Spain , the Netherlands and Italy . In - car systems10 that summon the emergency services after a crash have \_\_\_\_13\_\_\_\_ been fitted in some premium cars11 . ERTICO says that \_\_\_\_14\_\_\_\_ EU states12 are willing to fund the necessary infrastructure , E - merge could be working by 2008 . A study by French car maker Renault13 concluded that the system could save up to14 6000 of the 40 , 000 lives lost each year on Europe ' s roads , and prevent a similar number of serious injuries . The Renault study estimates that fitting E - merge to every car in Europe would eventually save around 150 billion per \_\_\_\_15\_\_\_\_ in terms of 15 reduced costs to health services and insurance companies , and fewer lost working days . 1 . A . try B . tried C . trying D . having tried 2 . A . automatically B . accidentally C . tremendously D . usually 3 . A . changed B . located C . developed D . copied 4 . A . by B . up C . about D . to 5 . A . forms B . is consisted of C . composes of D . includes

6 . A . read B . reading C . reads D . being read 7 . A . on B . in  
C . of D . at 8 . A . carmaker B . policeman C . doctor D  
. operator 9 . A . via B . near C . by D . beside 10 . A . assists B  
. causes C . makes D . helps 11 . A . number of B . deal of C  
. amount of D . volume of 12 . A . writer B . reporter C . expert  
D . leader 13 . A . already B . long ago C . long before D  
. shortly 14 . A . although B . nevertheless C . however D . if 15  
. A . city B . year C . person D . country 相关推荐：
