Week Holidays Be Abolished? There is no denying the fact that the introduction of the Golden Week holidays in China has

considerably promoted the development of the nations economy and touring industry and enriched peoples life. People around the

country have spent more time and money traveling and relaxing themselves. As every coin has two sides, the Golden Week holidays

have also brought about piles of problems. For one thing, due to the fact that people across the country are spending their vacations

during the same period of time, it is terribly crowded almost everywhere: trains, buses, hotels, scenic spots, etc., which have

ruined peoples mood for vacations. For another, some businessmen take advantage of the weeklong holidays and raise the priced of

commodities and services. Personally, I believe that it is necessary for people to have long vacations, but there is no need for them to have

the vacations during the same period of time. Instead, they should be allowed the freedom to arrange their own vacations. Only in this way

can they really relax and refresh themselves for a new round of work.
