8_c97_645771.htm Starting with Visual C version 6.0, it is now possible to expand an array pointer to view all array elements in the Visual C Debugger Watch window. This feature is not documented.

从 Visual c 6.0 版开始，现在可以展开 Visual c 调试器监视窗口中查看所有数组元素的数组指针。此功能未记录。 In the

Watch window, type an expression that evaluates to a pointer

followed by a comma and the number of elements in the array. 在监视

窗口中键入一个表达式，该表达式计算为后跟一个逗号和

数组中的元素数的指针。作为控制台应用程序生成下面的代

码的调试版本。 // Filename main.cpp // No compile option

needed #include 100Test 下载频道开通，各类考试题目直接下

载。详细请访问 www.100test.com
