to detail is something everyone can and should do especially in a tight job market. Bob Crossley, a human-resources expert notices this in the job applications that come across his desk every day. “ It’s amazing how many candidates eliminate themselves, ” he says. 2

“ Resumes(简历) arrive with stains. Some candidates don’t bother to spell the company’s name correctly. Once I see a mistake, I eliminate the candidate, ” Crossley concludes. “ if they can’t take care of these details, why should we trust them with a job? ” 3 Can we pay too much attention to details? Absolutely. Perfectionists struggle over little things at the cost of something larger they work toward.

“ To keep from losing the forest for the trees, ” says Charles Garfield, associate professor at the University of California, San Francisco, “ we must constantly ask ourselves how the details we’re working on fit into the larger picture. If they don’t, we should drop them and move to something else. ” 4 Garfield compares

this process to his work as a computer scientist at NASA. “ The Apollo moon launch was slightly off-course 90 percent of the time.

” says Garfield. “ But a successful landing was still likely because we knew the exact coordinates of our goal. This allowed us to make adjustments as necessary. ” Knowing where we want to go helps us judge the importance of every task we undertake. 5 Too often we believe what accounts for others’ success is some special secret or a

luckybreak (机遇). But rarely is success so mysterious. Again and again, we see that by doing little things within our grasp well, large rewards follow. 23 Paragraph 1 24 Paragraph 3 25 Paragraph 4 26 Paragraph 5 A Dont Be a Perfectionist.
