Other students prefer classes where the students do some of the talking. Which type of class do you prefer? Give specific reasons and details to support your choice. In my country, the lecture system is the most common system. It is the one I prefer for three reasons: I am used t the lecture system. it is an efficient system. I am too shy to talk in class. All my life, I have listened to teachers. They come into the room, open their books, and start to lecture. We students sit quietly at our desks and take notes. We never ask questions because we don ' t want to seem stupid. At the end of the course, we are given a test. If we can repeat on the test what the teacher said in class, we will get a good grade. The lecture system is an efficient one. Te teacher is the one who knows the subject, not the students. It is a waste of time listening to a student ' s ideas. What good will that does me? Time is short. I want the teacher to give me as much information as he or she can during the class period. Even if we could talk in class, I would never open my mouth. I am much too shy. I would be afraid the other students would laugh at me and make fun of my ideas. I prefer to listen to the teacher and memorize the teacher ' s ideas. I hope I can always study

in a school where they use the lecture system. I think it is better to continue with what one is used to. I also think that there is a lot of information that I must learn in the most efficient manner possible. I wouldn't want to interrupt a teacher with my foolish questions. 相关推荐：[托福满分作文幸福是否可以用金钱购买](#)
