When you pour yourself a cup of tea in a cozy afternoon and sit in front of the table with a book open, jazz is exactly the kind of music you should be looking for. It tastes good along with the sunshine. All the pressures and troubles seem to disappear after a dose of it. Works better than drugs. I especially love a Chinese jazz musician called Wang Ruolin. Her version of the jazz is particularly relaxing for me and it is her who makes me fall in love with this type of music. 100Test 下载频道开通，各类考试题目直接下载。详细请访问 www.100test.com
