Section I 补充主题句 1 ) \_\_\_\_\_ , generally , the standard of education is higher. This is because colleges and universities have up-to-date equipment and other resources. Also , teachers and lectures are highly-skilled professionals who are aware of all the latest developments in their fields of interest. A final point is that the overseas qualifications which a student obtains are valid usually anywhere in the world. 2 ) \_\_\_\_\_. These include defense capabilities and social security. Private enterprise and the profit motive should not form part of these essential services. On the other hand , some services could be provided by either governments or private groups or both. Education and health care are examples of such services. A government must provide at least a basic level of education and health care so all citizens can have access to them. 3 ) \_\_\_\_\_. Every day there are opportunities to practice listening to and speaking with Australians. Also , students can experience the culture first-hand , which is a great help when trying to understand the language. This is especially true if they choose to live with Australians , as part of a home-stay family , for example. Furthermore , if students attend a language school full-time , the teachers will be native speakers. 4

) \_\_\_\_\_ . Jose did not complete his mathematics yesterday. He spent the first fifteen minutes of the hour working on the first of the ten examination problems. He spent other minutes doodling on his test paper. 5 ) \_\_\_\_\_ . One example is the word “ graft. ” The verb to graft first meant merely to work. English people once used the word in such expressions as “ Where are you grafting ? ” , meaning “ Where are you working ? ” 。 From this perfectly respectable meaning , the word has gradually changed. Today graft refers to illegal gains won by dishonest politicians. Section II 重组下面的段落 6. Certainly TV can be a powerful educational tool. People can learn about situations and problems far away , and begin to understand different cultures. Many informative documentaries about nature , news , and social issues are made now , and these can stimulate people to action. People in isolated areas can know for themselves what is happening in the world. This gives them the power to make their own decisions and form their own opinions. 7. In my opinion , television is the most important technological development. Nowadays almost everyone in the world has access to TV. Television has caused significant changes in family life and education. Some of these changes have been positive while others have been negative. 8. However , the changes have not all been positive. Before television was widely available , families spent more time together talking and playing games. They seemed much closer to each other than modern families. 9. To sum up , I feel that , overall , there are strong positive effects of TV in terms of its education role , but it has in

may ways altered people and families in a negative sense. 10. Also , the fact is that people waste a lot of time watching poor quality programs which do not have a positive influence. People get a bad impression of the real world from such programs. Furthermore , TV is sometimes used to deliberately misinform people ; for example when it is used to as a propaganda tool by governments. 相关阅读 : #0000ff>2010年BEC初级段落写作训练1 #0000ff>BEC写作需掌握的70个关键句型 #0000ff>名师点评网友BEC初级作文汇总 100Test 下载频道开通 , 各类考试题目直接下载。详细请访问 [www.100test.com](http://www.100test.com)
