This is a clich é ( 陈词滥调 )。采集者退散 In the land of black and white , people should not be too surprised to find some of the biggest gaps between the rich and the poor in the world. But the American Dream offers a way out to everyone.\_\_\_\_\_

( 1 ) No class system or government stands in the way. Sadly , this old argument is no longer true. Over the past few decades there has been a fundamental shift in the structure of the American economy. The gap between the rich and the poor has widened and widened.

\_\_\_\_\_ ( 2 ) Over the past 25 years the median US family income has gone up 18 per cent. For the top 1 per cent , however , it has gone up 200 per cent. Twenty-five years ago the top fifth of Americans had an average income 6.7 times that of the bottom fifth. \_\_\_\_\_

( 3 ) Inequalities have grown worse in different regions. In California , incomes for lower class families have fallen by 4 per cent since 1969. \_\_\_\_\_ ( 4 ) This

has led to an economy hugely in favor of a small group of very rich Americans. The wealthiest 1 per cent of households now control a third of the national wealth. There are now 37 million Americans living in poverty. At 12.7 per cent of the population , it is the highest percentage in the developed world. Yet the tax burden on Americas rich is falling , not growing. \_\_\_\_\_ ( 5 ) There was an economic theory holding that the rich spending more would benefit everyone as a whole. But clearly that theory has not worked in reality. A Nobody is poor in the US. B The top 0.01 per cent of households has seen its tax bite fall by a full 25 percentage points since 1980. C For upper class families they have risen 41 per cent. D Now it is 9.8 times. E As it does so , the possibility to cross that gap gets smaller and smaller. F All one has to do is to work hard and climb the ladder towards the top.
