第二季第十六集 【剧情介绍】 Leonard一伙四人貌似是与其他部门的同事打彩弹(野战的一种), 他们被逼退到一个小木屋, Sheldon怪Howard没参加战略部署会才导致今天的状况, 所以Howard得掩护他们撤退. HOWARD: But what about the creek bed? SHELDON: The Pharmacology Department controls that, and they 're all hopped up on experimental steroids. RAJ: That 's it then. We 're doomed. SHELDON: I think the time has come to acknowledge that we are paying the price for some of us failing to attend my Physics Department paintball strategy meeting.

HOWARD: I told you my mom has spider veins. I had to take her to the laser clinic. SHELDON: And I told you I want to see a doctor 's note. RAJ: We need a plan. How about Operation Hammer of the Gods? LEONARD: I forget. Which one is Hammer of the Gods? RAJ: We hide behind the Dumpsters in the parking lot and ambush people when they come to pee. HOWARD: No go. The Dumpsters are deep in Astronomy Department territory. LEONARD: That shouldn 't be a problem. Venus is up during the day. They 're probably just all staring at the sky. SHELDON: All right, what we need now is a tactical retreat. Did you see the episode of Stargate where they found themselves on a planet with a culture based loosely on Earth 's Athens and Sparta? Not important. Leonard, Raj and I are going to burst out the door and run away. Howard will cover us.

HOWARD: Why don't I run away and you cover me?

SHELDON: Because you chose your mother's veins over victory.
