```
public static void
main(String[] args) { InputStream ins = null. String[] cmd = new
String[]{"cmd.exe", "/C", "ipconfig" }. try { Process process =
Runtime.getRuntime().exec(cmd). // cmd 的信息 ins =
process.getInputStream(). BufferedReader reader = new
BufferedReader(new InputStreamReader( ins)). String line = null.
while ((line = reader.readLine()) != null) { // 输出
System.out.println(line). } int exitValue = process.waitFor().
System.out.println("返回值：" exitValue). // 关闭
process.getOutputStream().close(). } catch (Exception e) {
e.printStackTrace(). } 100Test 下载频道开通，各类考试题目直接下载。详细请访问 www.100test.com
