disagree with the following statement? Parents are the best teachers.

Use specific reasons and examples to support your answer.

Obviously, the earliest teachers we have in our lives in most cases are our parents, and they are generally the most involved in the development and education of their children. Yet neither are all parents good teachers nor are those good parents the best teachers. First of all, not all parents are good teachers. As normal individuals, some parents more or less have bad habits. Even though parents almost instinctively devote themselves to cultivating their offspring, the outcome might turn out to be disappointment, for all children tend to unconsciously or subconsciously copy every thing from their parents. Another deficiency of parents as teachers is the fact that most parents are lack of common senses of education. All too often we observe some parents tend to pursue their cherished but failed dream by forcing their children to develop in a prearranged direction. Ironically, if their children did not follow the instructions, the children would be regarded as disobedient or allegedly rebellious. In fact, it is parents rather than their children that virtually disobey common senses. Moreover, some parents are qualified as good teachers, but not all of them are the best ones. When children are in the preliminary school, it is not surprising that parents are capable of teaching their children almost every subject even better than professional teachers in the school. But the situation will not last

long. We live in a world where knowledge is accumulated by multiplying and at the same time becomes more and more specialized. Therefore, to be a professional in a certain field today takes much longer time than ever before. No parent is able to be professional in all fields, though they might be experts in one or more fields. Wise parents often release rather than charge their children as early as possible. 100Test 下载频道开通，各类考试题目直接下载。详细请访问 www.100test.com
