Others prefer to live in a big city. Which place would you prefer to live in? Use specific reasons and details to support your answer. People seldom agree with each other even in such trivial issues as preference between a big city and a small town. It ' s a little bit haste to say that it is better to live in a big city than to live in a small town, or vice versus. Living in a big city has several benefits. First, there ' re more job opportunities readily available in big cities than in a small town. Furthermore, not merely there are more job positions in big cities, the qualities of the position are much higher as well. In addition, the pay is more decent. Second, children are supposed to be able to receive an education with a higher quality compared with their counterparts who live in a small town. For families, children ' s education is always put in the first place. Finally, living in a big city has a superior overall living standard to that in a small town. There are more commodities and services in city markets. there are more public utilities available in big cities. there are even much more television channels in big cities. However, living in a small town also has some advantages. People who live in a small town often have a much comfortable life style. Most of them are immune from suffering of high working stress. Although the average pay is much less than that of big cities, the price of daily necessities, such as vegetables or meat, is usually more inexpensive. Instead of

suffering loneliness which is prevalent in big cities, children might grow up more healthily because of harmonious relationship among residents in small town. 100Test 下载频道开通，各类考试题目直接下载。详细请访问 [www.100test.com](http://www.100test.com)
