(06. 4.8. 06. 12.15 考题) Sample answer：The most effective means of transport, I'd say, is bicycle, an indispensable companion of most Chinese even though the private cars are on the rise. Each Chinese family possesses at least one bicycle and it is especially popular among college students. Compared with cars, bicycle still has some advantages. First, it is very convenient due to its small size. It does not need special parking space and can be parked almost everywhere. Second, driven by man power, it doesn't need fuel, so it has nothing to do with air pollution and energy crisis. Third, most people can afford a bicycle, but not a more advanced car. With so many advantages, bicycle will remain to be the most effective means of transport in China in the following years. 相关推荐：>托福口语真题：invention >托福口语真题：Job >托福口语真题：Composition >托福口语丢分原因分析 >名师指点：托福网考口语更注重你说什么 >新托福口语：解读复述环节 100Test 下载频道开通，各类考试题目直接下载。详细请访问 www.100test.com
