(15 points)Children model themselves largely on their parents. They do so mainly through identification.Children identify 16 a parent when they believe they have the qualities and feelings that are 17 of that parent. The things parents do and sayand the 18 they do and say to themtherefore strongly influence a childs 19 . However, parents must consistently behave like the type of person they want their child to become.A parents actions 20 affect the self-image that a child forms through identification. Children who see mainly positive qualities in their 21 will likely learn to see themselves in a positive way. Children who observe chiefly 22

qualities in their parents will have difficulty seeing positive qualities in themselves. Children may 23 their self image, however, as they become increasingly 24 by groups standards before they reach 13. Isolated events, even dramatic ones, do not necessarily have a permanent 25 on a child's behavior. Children interpret such events according to their established attitudes and previous training. Children who know they are loved can, 26 , accept the divorce of their parents or a parent's early death. But if children feel unloved, they may interpret such events 27 a sign of rejection or punishment. In the same way, all children are not influenced 28 by toys and games, reading matter, and television programs. 29 in the case of a dramatic change in family relations, the 30 of an activity or experience depends on how the child interprets it.

16. A. to B. with C. around D. for
