You will be provided with an incomplete table which summarises or paraphrases information given in the reading text. The information in table form may be organised differently from the way in which it appears in the text, for example chronologically instead of in order of importance.

The task is to complete the gaps in three words or fewer. What is being tested is your ability to: skim for specific information

understand gist and paraphrase

How to approach table completion tasks

Step 1: Read the instructions carefully. Note that in the sample task you may use your own words if you wish, based on the

information in the reading text. In other cases you will be instructed

to use the words from the reading text only. Note also that here you

may write only three words or fewer. Step 2: Look at the table and

especially any headings. Decide which is the most useful way to read

the table. In this case you need to read it horizontally to answer the

questions. Glance at the other information given in the table to get an

idea of what information you will be searching for when you read.

Step 3: Look at the first row under the headings. Decide what key

ideas you will need to search for as you skim the reading text. Decide

also what information you will need to complete the first gap. For

example, in the sample task you will skim for a paragraph or section

discussing icebergs not being plotted because something was

scattered all over the ship. What was that something? Step 4: Skim

the text for the appropriate paragraph or section. Step 5: Read that section more carefully and decide on the best word or words to fill the gap. Remember that you will need to use the appropriate form of any verbs. 100Test 下载频道开通，各类考试题目直接下载。详细请访问 www.100test.com
